## Programmes and students

In some higher education systems the standard period of study differs by discipline (e.g. engineering programmes are longer than those in the humanities) or level (honours bachelor programmes are longer than standard bachelor programmes). At the request of a number of participating institutions we now offer the option of indicating different durations for standard and longer bachelor and master programmes. This makes reporting more convenient and enables a better calculation of graduation rates.

(If all of your bachelor and/or master programmes have the same standard period of study please use the 'not applicable' option for bachelor\_II and/or master\_II.)
